

MDP in Project Management for Pharma & Chemical Industries

Managing Product Development in the Pharma and Chemical Industries Goes Far Beyond Timelines and Task Lists.

- Are your teams struggling to coordinate regulatory, R&D, formulation, and manufacturing milestones across functions and geographies?
- Discover how effective Project Management for Pharma & Chemical Industries can streamline cross-functional collaboration and accelerate results.

It's time for Project Management that's Customized for Your Domain.

▶ PMSoft's Domain-Specific Management Development Program (MDP) in Project Management

Designed for Pharma and Chemical sectors, this course helps manage projects with structure, compliance, and agility across formulations, CDMO partnerships, and regulatory filings.

- Plan and execute New Product Development (NPD) using phase-gate methods
- Align project timelines with regulatory and filing milestones
- Manage CDMO contracts from enquiry to execution
- Integrate QA, RA, manufacturing, and R&D deliverables

About Us
