

PgMP® Classroom

Objectives of the course:

Program Management is a structured framework for defining and implementing change within an organization. The framework covers organization, processes, outputs and ways of thinking that focus on delivering new capabilities and realizing benefits from these capabilities. The new capabilities may be services, service improvements, working practices or products that are developed and delivered by projects. If you were to calculate the return on investment for each Program or project in your organization, you would undoubtedly see an unacceptable rate of return.

Duration and Structure of the course:

- Classroom sessions of 2 or 3 days duration depending upon the participants
- Duration of e-learning access 60 days
- Opportunity to discuss directly with the faculty & clarify all your doubts

Online Courseware Provided:

- Access to PMSOFT e-learning system (containing 3 full length practice tests, video tutorials, contents for reading, etc.)
- Unstinting support before, during & even after completion of the training program.

PDUs offered:

14 or 21 PDUs

Suggested participant profile:
